

PRODUCT INFORMATION

A premium blend of three high starch grains in a pellet.

What are MEGA TRI-STARCH PELLETS

MEGA TRI-STARCH PELLETS are designed to increase energy intake in lactating animals. By adding all three high starch grains in a pellet form we can lower the NDF, increase dry matter intake, multiply the volatile fatty acid population which utilises the pasture more efficiently, leading to better overall results.

BENEFITS FROM FEEDING MEGA TRI-STARCH PELLETS

Being in a pellet form, the grains have undergone a cooking process resulting in greater feed digestibility and feed efficiency than unprocessed grains. It is very high in energy and highly palatable.

PRODUCT INGREDIENTS

Barley, Wheat, Maize, Oil and Molasses.

NUTRITIONAL ANALYSIS – Dry Matter Basis*

Dry Matter	89.1%
Protein	11.8%
Starch	42.8%
N.D.F.	20%
M.E.	12 MJ/kg DM

*Due to ingredients being derived from natural sources, analysis can vary from what is stated.

FEEDING RECOMMENDATION

Requirements will differ depending on the current diet. It is recommended to introduce slowly to adult dairy cows at 500g per cow per day, increasing to a maximum of 4 kgs per cow per day.

STORAGE

Store in a dry area. Ensure all precautions are taken to store away from bird and rodent infestation.
