

PALM KERNEL EXPELLER (PKe)

PRODUCT DESCRIPTION

Palm Kernel Expeller (PKE) is a by-product of the palm oil extraction process from the fruit of the palm.

PKE is a quality stock feed containing high levels of crude protein and medium energy levels. It is completely safe to feed as a supplement for most classes of livestock.

PKE is ideally suited to feeding in conjunction with high energy feeds such as molasses, kibbled maize/tri starch pellets.

TYPICAL ANALYSIS

• Dry Matter	90%
• Energy (ME)	11.7MJ/KgDM
• Crude Protein	15.5-17%
• NDF	54-67%
• Crude Fibre	17.5%
• ADF	42%

note: typical analysis only, not specification.

USE AND APPLICATION

Suitable for feeding to lactating dairy cows. Requirements will differ depending on the current diet. As a guide, if feeding PKE, you should introduce slowly to adult dairy cows at 500g per cow per day, increasing to a maximum of 6kg per cow per day, with normal rates being fed 2-4kg per day.

STORAGE AND HANDLING

Store in a dry area and ensure all precautions are taken to store away from bird and rodent infestation.

These feeding recommendations are to be used as a guide only. Readers should not rely on these guidelines in making specific feeding decisions but should consult an appropriate nutritionist for specific total dietary approach recommendations.
